## Keepower MICRO

0.8A/12V  
KE800-12

The Keepower MICRO works great with smaller electrical 12V vehicles such as motorcycles, and lawn mowers. With IP65 protection the Keepower MICRO can be used outside rain or shine.

## Keepower SMALL

1A/12V or 4A/12V  
KE4000-12

The Keepower SMALL charger is the perfect all-round charger for the household. Suitable for motorcycles, lawn mowers, cars, boats, caravans and other smaller electrical 12V vehicles. The keepower SMALL charger is IP65 protected and can be used outdoor in the rain.

## Keepower MEDIUM

8A/12V  
KE8000-12

The Keepower MEDIUM charger is the perfect choice for household and semi professional users who need a fast and powerful but simple charger for charging cars, boats and caravans. The keepower MEDIUM charger is equipped with a SUPPLY mode feature to avoid losing the car's setup information, when changing batteries. The keepower MEDIUM charger is IP65 protected and can be used outdoor in the rain.

## Keepower LARGE

15A/12V  
KE15000-12

The Keepower LARGE charger is the perfect choice for the professional workshop or garage user who needs an extremely powerful but simple charger for charging cars, trucks and caravans. Equipped with a very powerful SUPPLY Mode that ensures a full battery even without the engine running. Capable of delivering 15A which makes it suitable for use in showrooms etc. and when servicing the car. The keepower LARGE charger is IP44 protected.

## Keepower XL-con

30A/15A 12V/24V  
KE3000CON

The Keepower XL-con is a professional charger that combines 12V and 24V chargers in one intelligent unit. Comes with temperature sensor and a USB port for charging your iPod, mobile and other electrical equipment. Equipped with a very powerful SUPPLY Mode that ensures a full battery even without the engine running. Capable of delivering 30A which makes it suitable for use in showrooms etc. and when servicing the car. The keepower XL-con charger is IP44 protected.

## Keepower XL-pro

30A/15A 12V/24V  
KE3000PRO

The Keepower XL-pro is the most power full professional charger in the keepower lineup that combines 12 and 24V chargers in one intelligent unit. Comes with temperature sensor and a USB port for charging your iPod, and other electrical equipment. Equipped with a SUPPLY Mode that ensures a full battery even without the engine running. Capable of delivering 30A which makes it suitable for use in showrooms etc. and when servicing the car. The keepower XL-pro charger is IP44 protected.

## Keepower CLASSIC

0.8A/6V  
KE800-6

The Keepower CLASSIC charger is the ideal charger for 6V batteries. Designed specifically for vintage cars, the Keepower CLASSIC is IP65 protected and can be used indoors and out.

Nominal battery voltage	12V
Charge Current Ibatt	1A/4A
Battery size	1.2Ah to 80Ah
Max. total outputpower	75W
Input voltage	230Vrms ± 10% (Mains voltage)
	50 Hz ± 3Hz
Ripple voltage (charging old battery with 40% capacity left)	<100mVpp
Current ripple (charging old battery with 40% capacity left)	3%
IP	65
Size of charger	146*89*52mm
Charger cable size	0.75mm <sup>2</sup> *1800mm
Length main cable	2000mm
Weight	0.490kg

Nominal battery voltage	12V
Charge Current Ibatt	8A
Battery size	20Ah to 160Ah
Max. total outputpower	150W
Input voltage	230Vrms ± 10% (Mains voltage)
	50 Hz ± 3Hz
Ripple voltage (charging old battery with 40% capacity left)	<100mVpp
Current ripple (charging old battery with 40% capacity left)	3%
IP	65
Size of charger	200*118*70mm
Charger cable size	2.50mm <sup>2</sup> *1800mm
Length main cable	2000mm
Weight	0.900kg

Nominal battery voltage	12V
Charge Current Ibatt	15A
Battery size	40Ah to 300Ah
Max. total outputpower	275W
Input voltage	230Vrms ± 10% (Mains voltage)
	50 Hz ± 3Hz
Ripple voltage (charging old battery with 40% capacity left)	<100mVpp
Current ripple (charging old battery with 40% capacity left)	4%
IP	44
Size of charger	200*118*70mm
Charger cable size	2.50mm <sup>2</sup> *1800mm
Length main cable	2000mm
Weight	0.900kg

Nominal battery voltage	12/24V
Charge Current Ibatt	30A/15A
Battery size	90Ah to 600Ah
Max. total outputpower	525W
Input voltage	230Vrms ± 10% (Mains voltage)
	50 Hz ± 3Hz
Ripple voltage (charging old battery with 40% capacity left)	<100mVpp
Current ripple (charging old battery with 40% capacity left)	4%
IP	44
Size of charger	230*118*70mm
Charger cable size	4 mm <sup>2</sup> *2100mm
Length main cable	2000mm
Weight	1.360kg

Nominal battery voltage	12/24V
Charge Current Ibatt	30A/15A
Battery size	1.2Ah to 600Ah
Max. total outputpower	525W
Input voltage	230Vrms ± 10% (Mains voltage)
	50 Hz ± 3Hz
Ripple voltage (charging old battery with 40% capacity left)	<100mVpp
Current ripple (charging old battery with 40% capacity left)	4%
IP	44
Size of charger	230*118*70mm
Charger cable size	4mm <sup>2</sup> *2100mm
Length main cable	2000mm
Weight	1.360kg

All Keepower chargers come with a 5 year warranty

# 10 Reasons to buy **keepower**<sup>®</sup>

Intelligent battery care

## Extend your battery life

With no conventional float voltage/ current stage your batteries will last longer.

## Charge deeply discharged batteries

With an integrated boosting system, Keepower can recover a battery from as low as 0.4 Volts.

IP44  
IP65

## Use in or out of the workshop

With a super durable unit and IP65 rating on smaller models (Micro, Small and Medium) and IP44 on large models (Large,

## Charge your phone while you work

With a built in USB port for 5V USB powered devices (XL-Con and XL-pro models only).

## Light up Dark Spots

With a unique, convenient, built in flashlight to help you see when connecting to your batteries.

## Easy to use

With an adjustable support stand which allows positioning of the charger for easy viewing, and easy to connect hook free clamps.

## Charge with super efficiency

The Keepower transfers more than 90% of the energy to the battery, causing less CO<sup>2</sup> emissions and less heat generation.

## Power your appliances

With a built in supply mode feature to power appliances with the same rating as the charger (13.8V / 10A).

## Charge with two in one

With both 12V or 24V charging in one comprehensive unit (XL-Con and XL-Pro models only).

## Enjoy a charger packed with features

With a microprocessor which allows for optimum charging, a temperature sensor, a built in battery indicator which shows if your battery needs a charge, and spark and overload protection to keep your circuits safe, the Keepower range of battery chargers has everything you need for intelligent battery care.
